*\*Investment products listed above have been identified by the Investment Provider as being; Mutual Fund Managed Portfolios, Annuities, or Mutual Fund Platforms. These investment products are not meant to be a recommendation. The mutual fund platforms area displays the largest (by participants dollars invested) mutual funds simply to indicate where each Investment Provider has the most invested dollars for MRIC participants. Participants should make every effort to make sure the investments they select are suitable for their unique needs. This report came from data and information supplied by the Core Provider and has only been compiled, analyzed, and summarized, not audited. Foresight makes no warranty of complete accuracy, assumes no liability for, and reserves the right to correct this information.*

### Investment Provider Performance Footnotes:

**Note 1.** Model performance information is hypothetical and does not necessarily represent trading in actual accounts. It assumes accounts were fully invested in the specified models as of 02/28/2009 with no subsequent additions or withdrawals. MCA MRIC -specific managed models did not exist prior to 1/1/2009. **Consequently, they do not have full, actual ten-year reporting periods as of 12/31/2018.** The hypothetical performance for the time periods prior to the establishment of these model allocations includes assumptions about fees, investment vehicles and asset class composition that may have been different had the model allocations actually existed. Returns information is from sources believed to be reliable and correct but is not guaranteed. It is presented solely for the use and reference of those persons who are participants in a Michigan Retirement Investment Consortium ("MRIC") member-sponsored 403(b) plan, or who are otherwise approved by Midwest Capital Advisors, LLC. The managed model allocations represented in these illustrations consist of varying asset class allocations using numerous specified mutual funds, which are subject to changes at any time that may include, without limitation, asset class changes, fund changes, allocation adjustments and rebalancing, any of which could occur mid-period and which may affect illustrated returns. The illustrated hypothetical returns are net of individual fund management and administrative fees and MCA portfolio management (and related) fees. In addition to the reasons stated herein, participants' actual returns will vary from the hypothetical illustrated returns due to the timing of account additions or withdrawals, changing of participant investment elections and other circumstances specific to a particular participant's account. Returns for comparative indices do not reflect any fund or transaction fees that would be charged if one wanted to actually invest in one or more vehicles that provide exposure to that index, all of which will cause actual performance to be less than what is illustrated.

**Note 2.** Model performance for MCA is calculated as follows:  
 -A weighted return is calculated each month based upon model components and allocations for that month.  
 -If a component was not part of a model in any given month, the weighted return for the model for that month is calculated without regard to that component.  
 -The monthly returns for each model are then compounded to produce the corresponding annualized returns.

**Note 3.** Prudential/MEA report performance for their GoalMaker portfolio program by individual funds. To calculate portfolio performance, a participant must multiply the performance of each fund in their portfolio by its respective weighting in the portfolio, and sum the resulting products. (See Additional Footnote Section -MEA)

**Note 4.** Lincoln Investment's Asset Management Composite Performance for the Managed Mutual Fund Portfolios uses an asset weighted composite and time weighted rate of return to present performance results net of fees (see Fees & Expenses for more information). Each composite aggregates all client portfolios whose assets are managed under a particular strategy and reflects the aggregated performance across all underlying managed assets. Returns are calculated based on daily valuation and reflect the reinvestment of all dividends and/or distributions paid by the funds held in the portfolio during the selected time period. Returns should not be used exclusively when deciding upon an advisory investment strategy. The investment decisions reflect the impact of material economic and market factors. Performance should be evaluated in the context of the broad market and general economic conditions during the evaluation period. When reviewing a shorter period of time, portfolio performance and volatility may not be indicative of the returns and volatility generated during longer periods of time and varying market conditions. All investments involve the risk of potential investment losses as well as the potential for investment gains. The investment return and principal value of an investment will fluctuate, and an investor's shares, when redeemed, may be worth more or less than their original cost. Past performance is no guarantee of future results. Performance is presented net of Advisor and Asset Management fees. Performance does not include the deduction of Custodial fees, loan administration fees or other account related charges. The Advisory fees is comprised of a 0.30% annual Managed Portfolio Mutual Fund Portfolio fee plus a Financial Advisor's fee not to exceed 1.55% in total annually. Clients may incur additional fund expenses, such as, mutual fund short-term trading redemption fees. Fees and cost impact the overall performance of your account. The Market Indices shown are provided by MRIC for illustration purposes only. The Market Index may not be indicative of the true allocation of the portfolio. You cannot invest directly in an index. Index performance assumes the reinvestment of dividends. Performance for the funds shown under the Mutual Fund Platform offering are fund performance as provided by Morningstar. This performance is not net of Custodial Fees. Clients may incur additional fund expenses, such as, mutual fund short-term trading redemption fees. Fees and cost impact the overall performance of your account. The Market Indices shown are provided by MRIC for illustration purposes only. The Market Index may not be indicative of the true allocation of the portfolio. You cannot invest directly in an index. Index performance assumes the reinvestment of dividends

**Note 5.** MEA Financial Services primarily utilizes Plan 6978, their MRIC annuity offering, for participants seeking a guaranteed fixed rate of return. Participants with this goal are often directed to the Guaranteed Interest Account in Plan 6978. (See Additional Footnote Section-MEA)

**Note 6.** Variable annuity returns for the PlanMember Axa Annuity are reported as a range of all sub-accounts. Participant returns will lie within this range depending on their sub-account allocation. Consult the prospectus for more details.

**Note 7.** Valic Portfolio Director Annuity is equally weighted net performance based on allocation of all available investment funds.

**Note 8.** MCA managed models are not designed to track the index below.

**Note 9.** Managed portfolios are diversified long-term investment strategies with an advisor who oversees the portfolio. Consider your risk tolerance goals when choosing a managed portfolio

**Note 10.** Participants invested in an Annuity platform are advised to consider the benefits of an Annuity investment in accordance with their goals and risk tolerance. Participants selecting the Annuity should read the Annuity product information or prospectus for a full understanding of the costs, return guarantees, and the claims-paying ability of the issuing Annuity company, associated with variable and fixed annuities.

**Note 11.** Participants utilizing this self-directed mutual fund platform are advised to consider the benefits of constructing a well-diversified portfolio in accordance with their goals and risk tolerance. Participants selecting this option should be satisfied that they alone or with professional guidance possess adequate levels of investment knowledge and experience to make choices that are appropriate for their particular circumstances

**Note 12.** Mutual Fund Platforms - These represent the contribution weighted returns of the Investment Provider's Mutual Fund Platform, based on individual Mutual Fund performance that have received MRIC contributions during the time period 9/30/18 through 12/31/2018.

**Note 13.** MCA is not able to accurately or practically provide the requested "Contribution Weighted Returns" across all MRIC plans for all funds on the MCA Mutual Fund Platform during the indicated time periods.

**Note 14.** Due to transitioning to a new Third-Party Administrator, GLP was unable to report Mutual Fund Platform contribution weighted returns during the time period 9/30/18 through 12/31/2018. The Returns listed are an equally weighted average of Gross returns of all mutual funds available on GLP's Mutual Fund Platform as of 12/30/18.

**Note 15.** See Additional Footnote Section -GLP located at the back of the Report Card

\*This report came from data and information supplied by the Core Provider and has only been compiled, analyzed, and summarized, not audited. Foresight makes no warranty of complete accuracy, assumes no liability for, and reserves the right to correct this information.

### Additional Footnote Section-GLP

#### **GLP & Associates Footnotes and Additional Performance Disclosures:**

- Please consider the investment objectives, risks, charges and expenses carefully before investing in Mutual Funds. The prospectus, which contains this and other information about the investment company, can be obtained directly from the Fund Company or from your financial professional. Be sure to read the prospectus carefully before deciding whether to invest.

- Neither Asset Allocation nor Diversification guarantees a profit or protect against a loss in a declining market. They are methods used to help manage investment risk.

- Investment Advisory Services offered through Asset Allocation Strategies, LLC, a SEC Registered Investment Adviser. Securities offered through GLP Investment Services, LLC Farmington Hills, MI 48331, Member FINRA/SIPC.

- All investment products offered, including annuities, are long term retirement investments and access may be limited and surrender charges may apply. A tax penalty may apply to early withdrawals, consult with your tax advisor prior to making withdrawals.

AAS(b) Model performance information is hypothetical and does not necessarily represent trading in actual accounts. It assumes accounts were fully invested in the specific model as of 12/31/2005 with no additional deposits or withdrawals. AAS(b) specific managed portfolios did not exist prior to 6/1/2011, as such they do not have actual ten-year reporting periods as of 12/31/2018. The hypothetical performance for the time periods prior to the establishment of these model portfolios includes assumptions about fees, investment options and asset class composition that may have been different had the model portfolios actually existed. Returns information is from sources deemed to be reliable and correct but is not fully guaranteed. It is presented solely for the use and reference of those persons who are participants in a MRIC member-sponsored 403(b) plan, and represented by Asset Allocation Strategies, LLC and its IAR representatives. The model performance listed includes a reduction to account for advisory, account and custodial fees. Returns for the benchmark indices does not reflect any fund, transaction, account, advisory or custodial fees that would be charged if a participant wanted to actually invest in one or more portfolios that provide exposure to that benchmark. All of which will cause actual performance to be less than illustrated. The analysis and opinions presented in this report (1) do not constitute professional investment advice; (2) are provided solely for informational purposes; (3) are not warranted or represented to be correct, complete, or accurate; and (4) are for the exclusive use of MRIC member-sponsored 403(b) plan participants. ### GoalMaker® Allocations & Individual Fund Performance Footnotes

GoalMaker Investment Options Available:

- Stable Value
- Fixed Income - Fixed income investment (bond) funds are subject to interest rate risk; their value will decline as interest rates rise.
- Large Cap Stock - Value
- Large Cap Stock - Growth
- Small/Mid Cap Stock - Value - Small and mid sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.
- Small/Mid Cap Stock - Growth Small and mid sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.
- International Stock - International (Foreign) investing presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.

Morningstar Associates is a registered investment advisor and wholly owned subsidiary of Morningstar, Inc.

This information should not be construed as an endorsement of GoalMaker. Plan participants may continue to make their own allocation decisions. As a service provider, neither Prudential Financial nor its representatives are permitted to render investment advice.

Keep in mind that application of asset allocation and diversification concepts does not ensure a profit or protect against loss in a declining market. It is possible to lose money by investing in securities.

The performance quoted represents past performance. The investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than original cost. Past performance does not guarantee future results. Current performance may be lower or higher than the performance data quoted. For performance information current to the most recent month end, please call 1-800-353-2847 or visit our website at [www.prudential.com](http://www.prudential.com)

The historical performance shown represents the change in net asset value of an investment over a stated period assuming the reinvestment of dividends and capital gains distributions. The performance results shown do not reflect the deduction of the sales charge that may apply if the Fund shares were purchased outside of the plans or other programs. If the sales charges were reflected, performance may be lower. This is the performance that best reflects your investment experience as sales charges do not apply to your plan. At times, certain mutual funds' performance may be extraordinarily high due to investing in sectors that achieved unprecedented returns. There can be no assurance that this performance can be repeated in the future.

Investing in securities involves risk, including the possible loss of principal. Unforeseen market conditions have the potential to maximize losses. Investors should carefully consider a fund's investment objectives, risks, charges and expenses before investing. For more complete information about the investment options available through your plan, please call 1-877-778-2100 for a factsheet that contains this and other information about our funds. Read the factsheet carefully before investing. Keep in mind it is possible to lose money by investing in securities.

Shares of the retail mutual funds are offered by Prudential Investment Management Services LLC (PIMS), Newark, NJ. PIMS is a Prudential Financial company. Prudential Financial is a service mark of the of the Prudential Insurance Company of America, Newark, NJ and its affiliates.

Prudential Retirement is a Prudential Financial business.

© 2017 Prudential Financial, Inc. and its related entities. Prudential, the Prudential logo, the Rock symbol and Bring Your Challenges are service marks of Prudential Financial, Inc., and its related entities, registered in many jurisdictions worldwide.

## **GoalMaker® Fund Footnotes**

In providing this information Prudential Retirement is not undertaking to provide impartial investment advice, or to give advice in a fiduciary capacity. Prudential Retirement may benefit from advisory and other fees paid to it or its affiliates for managing, selling, or settling of the Prudential mutual funds and other investment products or securities offered by Prudential Retirement or its affiliates. Investment vehicles sponsored or managed by a Prudential Retirement affiliate generate more revenue for the Prudential enterprise than non-proprietary investment vehicles. Prudential Retirement's sales personnel generally receive greater compensation if plan assets are invested in proprietary investment vehicles. Prudential Retirement may benefit directly from the difference between investment earnings of Prudential Retirement's stable value funds and the amount credited to deposits in those funds. Prudential Retirement may also benefit from broker-dealer or other entities' co-sponsorship of Prudential conferences.

These model portfolios are provided as samples and not as investment recommendations. The model portfolios are based on generally accepted investment practices and take into account the principles of modern portfolio theory, in which allocations are adjusted in an effort to achieve maximum returns for a given level of risk. Participants using GoalMaker should consider other assets, income, and investments (e.g. equity in a home, Social Security benefits, individual retirement plan investments, etc.) in addition to the interest in the plan, to the extent those items are not taken into account in the model before applying these models to their individual situation. Past performance of investments or asset classes does not guarantee future results.

The Guaranteed Interest Account (GIA) is a group annuity product issued by The Prudential Insurance Company of America (PICA), Newark, NJ 07102. Amounts contributed to the contract are deposited in PICA's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PICA. PICA periodically resets the interest rate credited on contract balances, subject to a minimum rate specified in the group annuity contract. Past interest rates are not indicative of future rates. This product is neither a mutual fund nor a bank product. The obligations of PICA are not insured by the FDIC or any other federal governmental agency. Contract form # DC -401-95 or state variation thereof.

Prudential Retirement is compensated in connection with this product when general account investment returns exceed the interest credited on contract balances. Prudential Retirement may earn fee revenue in addition to the foregoing compensation if your plan has agreed to pay contract charges, which are sometimes paid in respect of plan and participant recordkeeping and distribution services. For some plans, Prudential Retirement uses a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses. If Prudential Retirement's aggregate compensation from this product and from other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise we incur a loss. Frequent exchanging between plan investment options may harm long-term investors. Your plan or the plan's investment funds may have provisions to deter exchanges that may be abusive. These policies may require us to modify, restrict or suspend purchase or exchange privileges and/or impose redemption fees.

Prudential Retirement is compensated in connection with this product when general account investment returns exceed the interest credited on contract balances. Prudential Retirement may earn fee revenue in addition to the foregoing compensation if your plan has agreed to pay contract charges, which are sometimes paid in respect of plan and participant recordkeeping and distribution services. For some plans, Prudential Retirement uses a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses. If Prudential Retirement's aggregate compensation from this product and from other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise we incur a loss.

The Discovery Select is a group variable annuity; not a mutual fund. The portfolio described in this fact sheet is offered as a variable investment option under the annuity. Upon allocation of money into the portfolio, the annuity's separate account invests in a corresponding mutual fund. Unless otherwise noted, the data included above relates to this underlying fund. As with any investment, there are market risks and your group variable annuity values will rise and fall in tandem with the underlying investments. Investors may receive less than the original invested amount. A variable annuity is suitable for long-term investing, particularly retirement savings. Annuity contracts contain exclusions, limitations, reductions of benefits and terms for keeping them in force.

Contributions to 403(b), 457(b) and 401(k) plans, including earnings thereon, generally may not be withdrawn before age 59 1/2, severance from employment, death or disability. The Texas ORP generally allows withdrawals only upon death, retirement or termination of employment. Withdrawals are also subject to the terms of the plan.

Tax deferral is generally provided by an individual retirement account and employment based retirement plans. A variable annuity contract should be used to fund a tax favored retirement plan to benefit from the annuity's features other than tax deferral, including lifetime income payout option, the death benefit protection, and the ability to transfer among investment options without sales or withdrawal charges.

<sup>35</sup>Source: Morningstar Inc.. Morningstar average annual returns may differ from the returns calculated by the fund.

<sup>42</sup>Small and mid sized companies may present greater opportunities for capital appreciation, but may also involve greater risks than larger companies. As a result, the value of stocks issued by these companies may fluctuate more than stocks of larger issuers.

<sup>51</sup>Investing in emerging markets is generally riskier than investing in foreign securities. Emerging market countries may have unstable governments and/or economies that are subject to sudden change. These changes may be magnified by the countries' emergent financial markets, resulting in significant volatility to investments in these countries. These countries may also lack the legal, business and social framework to support securities markets.

<sup>141</sup>Investing in foreign securities presents certain unique risks not associated with domestic investments, such as currency fluctuation and political and economic changes. This may result in greater share price volatility.

<sup>248</sup>The Guaranteed Income Fund (GIF) is a group annuity product issued by Prudential Retirement Insurance and Annuity Company (PRIAC), Hartford, CT 06103. Amounts contributed to the contract are deposited in PRIAC's general account. Payment obligations and the fulfillment of any guarantees specified in the group annuity contract are insurance claims supported by the full faith and credit of PRIAC. However, if you are a participant in a nonqualified deferred compensation plan, GIF may be only a reference account that is used to determine the plan's liability to you, and may not represent an actual investment in the group annuity. PRIAC periodically resets the interest rate credited on contract balances, subject to a minimum rate specified in the group annuity contract. Past interest rates are not indicative of future rates. This product is neither a mutual fund nor a bank product. The obligations of PRIAC are not insured by the FDIC or any other federal governmental agency. Prudential Retirement is compensated in connection with this product when general account investment returns exceed the interest credited on contract balances. Prudential Retirement may earn fee revenue in addition to the foregoing compensation if your plan has agreed to pay contract charges, which are sometimes paid in respect of plan and participant recordkeeping and distribution services. For some plans, Prudential Retirement uses a portion of its aggregate compensation to satisfy the plan's request for allowances and for payments to defray plan expenses. If Prudential Retirement's aggregate compensation from this product and from other plan investment products exceeds the costs of servicing your plan, Prudential Retirement earns a profit; otherwise we incur a loss. Frequent exchanging between plan investment options may harm long-term investors. Your plan or the plan's investment funds may have provisions to deter exchanges that may be abusive. These policies may require us to modify, restrict or suspend purchase or exchange privileges and/or impose redemption fees.

<sup>302</sup>Prudential Financial is a service mark of The Prudential Insurance Company of America, Newark, NJ and its affiliates. Institutional sub-advised funds are insurance products issued by Prudential Retirement Insurance and Annuity Company, Hartford, CT. Prudential Retirement is a Prudential Financial Business.

<sup>1254</sup>Fixed income investments (bond) are subject to interest rate risk; their value will decline as interest rates rise.
