Note 1. Managed portfolios are diversified long-term investment strategies with an advisor who oversees the portfolio. Consider your risk tolerance goals when choosing a managed portfolio.

Note 2. Participants invested in an Annuity platform are advised to consider the benefits of an Annuity investment in accordance with their goals and risk tolerance. Participants selecting the Annuity should read the Annuity product information or prospectus for a full understanding of the costs, return guarantees, and the claims-paying ability of the issuing Annuity company, associated with variable and fixed annuities.

Note 3. Variable Annuities are long term investments and access may be limited if surrender charges apply and as a result of a 10% tax penalty on certain withdrawals.

Note 4. Participants utilizing this self-directed mutual fund platform are advised to consider the benefits of constructing a well-diversified portfolio in accordance with their goals and risk tolerance considerations. Participants selecting this option should be satisfied that they alone or with professional guidance possess adequate levels of investment knowledge and experience to make choices that are appropriate for their particular circumstances.
