Investment Provider Fee and Expense Footnotes:

Note 1. Includes deduction for mutual funds average expense rebates.

Note 2. Securities offered through Paradigm Equities, Inc. a wholly owned subsidiary of MEA Financial Services. (See Additional Footnote Section-MEA)

Note 3. This list represents only a subset of the Managed Mutual Fund Portfolios available to participants. This list is generally reviewed and updated annually and reflects the top four Managed Mutual Fund Portfolios by total MRIC assets under management offered through Lincoln Investment's Retirement Solutions PREMIER program as of December 31st. For additional offerings, consult with your Lincoln Investment financial advisor.

Note 4. Listed as a Gross Expense Ratio which includes the 1% M&E Fee. (See Additional Footnote Section -MEA)

Note 5. Surrender charge is waived for non-in plan exchange distributions. Waivers may apply for surrender charges incurred for internal exchanges with other MRIC vendors, please contact VALIC.

Note 6. Variable Annuities are long-term investments and access may be limited if surrender charges apply and as a result of a 10% tax penalty on certain withdrawals. (See Additional Footnote Section-MEA)

Note 7. Annual Cost of a \$10,000 portfolio or mutual fund investment was calculated by: Multiplying the \$10,000 investment by the highest and lowest average net expense ratios for each portfolio and then adding it the maximum annual advisory fee and custodial fee. Cost of a \$10,000 Mutual Fund Platform purchase on the commission based mutual fund platform was calculated by: Multiplying a \$10,000 investment by the maximum mutual fund sales charge and the internal fund management net expense ratios to determine the fund expenses and then adding the custodial fee. Year 1 represents the initial cost and subsequent years represent ongoing cost. Cost of a \$10,000 portfolio was calculated by: Multiplying the \$10,000 investment by the highest and lowest internal fund management net expense ratios to determine the fund expenses in dollars and subtracting the fund expenses in dollars from \$10,000. The resulting number was then multiplied by all applicable fees reported by each provider. These included the following fees: advisory, participant, custodial, separate account, wrap, asset, M&E fee, and all other fees to determine the fees in dollars. Lastly the Third Party Administration fee was added to all other fees calculated to get a total estimate of annual fees charged on a \$10,000 portfolio. (e.g., \$10,000 investment * 0.10% internal management net expense ratio = \$10 fund expenses: \$10,000 investment - \$10 fund expenses = \$9,990 investment net of fund fees* 1.00% annual advisory fee = \$99.90 annual advisory fee; + \$50 for account service fee; + \$10 internal management net expense ratio + \$99.90 advisory fee + \$50 account service fee = \$159.90 annual cost of a 10,000 portfolio)

Note 8. Managed portfolios are diversified long-term investment strategies with an advisor who oversees the portfolio. Consider your risk tolerance goals when choosing a managed portfolio.

Note 9. Participants invested in an Annuity platform are advised to consider the benefits of an Annuity investment in accordance with their goals and risk tolerance. Participants selecting the Annuity should read the Annuity product information or prospectus for a full understanding of the costs, return guarantees, and the claims-

paying ability of the issuing Annuity company, associated with variable and fixed annuities.

Note 10. Participants utilizing this self-directed mutual fund platform are advised to consider the benefits of constructing a well-diversified portfolio in accordance with their goals and risk tolerance. Participants selecting this option should be satisfied that they alone or with professional guidance possess adequate levels of investment knowledge and experience to make choices that are appropriate for their particular circumstances.

Note 11. Mutual Fund Platforms - These Represent the fee range of mutual funds available to MRIC participants offered through the Investment Provider's Mutual Fund platform as of 9/30/2020.
