Note 1. Managed portfolios are diversified long-term investment strategies with an advisor who oversees the portfolio. Consider your risk tolerance goals when choosing a managed portfolio.

Note 2. Participants invested in the Annuity platform are advised to consider the benefits of an Annuity investment in accordance with their goals and risk tolerance. Participants selecting the Annuity should read the Annuity product information or prospectus for a full understanding of the costs, return guarantees, and the claims-paying ability of the issuing Annuity company, associated with variable and fixed annuities.

Note 3. Participants utilizing this self-directed mutual fund platform are advised to consider the benefits of constructing a well-diversified portfolio in accordance with their goals and risk tolerance. Participants selecting this option should be satisfied that they alone or with professional guidance possess adequate levels of investment knowledge and experience to make choices that are appropriate for their particular circumstances.

Note 4. Mutual Fund Platforms - These represent the highest dollar volume of assets under management determined annually as of 12/31/17. Returns are updated as of quarter end - 6/30/18. May not be suitable for all participants.
